Skidmore College, Saratoga Springs, NY   **2013 - 2017**
Major: Computer Science
Minor: Physics

WORK EXPERIENCE

On Beat Digital, Holmdel, NJ   **Nov. 2018 – Present**
Solutions Architect
- Designed, documented, developed and tested enterprise level web applications
- Collaborated with off shore developers
- Integrated with leading marketing technologies (Salesforce, Eloqua, Veeva CRM)
- Developed AEM components, templates and pages

IMC – Irvine Marketing Communications, Holmdel, NJ   **Jun. 2016 – Nov. 2018**
Intern/Remote Backend Data Integrations Developer
- Designed, documented, developed and tested enterprise level web applications
- Integrated with leading marketing technologies (Salesforce, Eloqua, Veeva CRM)
- Developed internal processes, tools, and automation to enhance productivity and efficiency of all staff.
- I worked remotely while completing my degree at Skidmore College before joining staff full-time after graduation.

Rosie Applications, Ithaca, NY   **2014 – Feb. 2016**
Intern, Android Developer
- Learned Android development basics and assisted in the development Android application for customers to order groceries through an existing Rosie web API.
- Became the main Android developer and added features to the app such as bar code recognition, improved checkout, gifting groceries, and improvements to application structure.
- Developed in Android Studio using Git to manage version control.
- Utilized scrum framework to set and deliver project goals.
- Continued to upgrade Android app remotely while at Skidmore College.

Skidmore College, Saratoga Springs, NY   **2013 - 2017**
Lab Technician and Machine Shop Leader
- Maintained and prepared lab equipment for the Physics Department.
- Lead multiple machine shop projects including building and designing a lower body negative pressure chamber, wasps nest boxes, and an augmented reality sandbox.
